

Very easy to measure actual overlay typically going to be 1/2 inch, 3/4 or 1 inch overlay. The cup size should be 25 mm but worth measuring. Review the U tube video on measuring or go to ...

There is a big difference between overlay and inset hinges so please know what you are buying. Overlay means your cabinet door "overlays" (or overlaps) the cabinet frame ...

I was able to fix it by using 3/8 hinges instead. I created the doors by measuring the opening and adding 1 in so that I would have a half inch overlay on both sides (-1/8 if double door). Butttt ...

Product Details About This Product The Richelieu Hardware Blum Compact 1/2 in. Overlay Frame Cabinet Hinges (2-Pack) are used for face-frame applications with a 1/2 in. overlay door. ...
