

According to the report, Sungrow dominated the market with 16% of global market share rankings by shipment (MWh), jointly followed by Fluence (14%) Tesla (14%), Huawei (9%) and BYD (9%).

These companies have secured top positions in the global energy storage battery market. However, venturing into international markets presents challenges, including regulatory disparities, localized product demands, and certification requirements.

The global energy storage systems market recorded a demand was 222.79 GW in 2022 and is expected to reach 512.41 GW by 2030, progressing at a compound annual growth rate (CAGR) of 11.6% from 2023 to 2030.

Including Tesla, GE and Enphase, this week's Top 10 runs through the leading energy storage companies around the world that are revolutionising the space. Whether it be energy that powers smartphones or even fuelling entire cities, energy storage solutions support infrastructure that acts as a foundation to the world around us.

Top 10 Energy Storage Trends in 2025 1. Advanced Lithium-Ion Batteries. Lithium-ion batteries offer advantages such as portability, fast recharging, low maintenance, and versatility. However, they are extremely flammable, sensitive to high temperatures, require overcharge or complete discharge protection, and suffer from aging.

Battery Energy Storage System Companies. 1. BYD Energy Storage. BYD, headquartered in Shenzhen, China, focuses on battery storage research and development, manufacturing, sales, and service and is dedicated to creating efficient and sustainable new energy solutions.

Tesla has overtaken Sungrow as the largest global producer in the battery energy storage system (BESS) integrator market, earning 15% market share in 2023, according to Wood Mackenzie's latest Global battery energy storage system integrator rankings 2024 report.

The world shipped 196.7 GWh of energy-storage cells in 2023, with utility-scale and C& I energy storage projects accounting for 168.5 GWh and 28.1 GWh, respectively, according to the Global Lithium-Ion Battery Supply Chain Database of InfoLink.
