5g metal steel battery housing

One day I'll get new batteries o o o DM to be a part of the build Sponsors: @maxxeddiesel @speeddemonlights @limitlessmfg @fcklightbars @trigger_industries @sparksmithauto...

With NR+ aligning this approach to the 5G family, utilities dodge vendor lock-in while unlocking sub-second reads and real utility-grade reliability. And when mesh routers can run at ~20 microamps on ...

??????????????????????????,?? ...
