

What happened at solar solutions in Kortrijk?

One of the highlights of Solar Solutions in Kortrijk was the competition European Solar Games Belgium. Installers competed the coveted "Golden Roof Hook", where quality, safety and speed of installation were crucial. The Belgian PV market is developing dynamically, especially in the residential sector around self-consumption solutions.

How many solar panel installers are there in Belgium?

Belgian solar panel installers - showing companies in Belgium that undertake solar panel installation, including rooftop and standalone solar systems. 684 installers based in Belgium are listed below.

Does Belgium have a good solar system?

The quality awareness is high. This was demonstrated at the Solar Solutions trade fair, which was held for the first time in Kortrijk (Flanders). With an installed PV capacity of 677 watts per 1000 inhabitants, Belgium ranked 6th worldwide last year, ahead of Spain or Switzerland.

Does Belgium have a solar market?

The fact that Belgium is an interesting solar market was also demonstrated by the presence in Kortrijk of the PV wholesaler Menlo Electric (headquartered in Warsaw, Poland), which is expanding rapidly internationally.

Where were the first solar solutions exhibited?

The first Solar Solutions took place last week in Kortrijk (West Flanders). Compared to large trade shows like Intersolar Europe in Munich, everything was quieter though. 125 exhibitors showed their new products and solutions on 12,600 square meters.
