

What solar projects are being built in Jordan?

Jordan has several large-scale solar projects under construction or in the planning stages, including the 800 MW Al-Dhafra project, which is being developed by the Abu Dhabi National Energy Company (TAQA) and the 400 MW Al-Risha project, which is being developed by Saudi Arabia's ACWA Power.

What is A1 Solar Power?

A1 Solar Power is a company based in Van Nuys, California, dedicated to providing cleaner energy to homeowners through solar power. They focus on premier service, current technologies, reliable manufacturers, and delivering the utmost value to their customers.

What is the solar energy potential in Jordan?

The solar energy potential in Jordan is enormous as it lies within the solar belt of the world with average solar radiation ranging between 5 and 7 kWh/m², which implies a potential of at least 1000 GWh per year annually. Solar energy, like other forms of alternative energy, remains underutilized in Jordan.

How does Jordan support the development of solar energy?

In addition, Jordan has signed several agreements with international organizations and foreign governments to support the development of its solar energy sector. For example, in 2018, Jordan signed an agreement with the International Finance Corporation (IFC) to support the development of a 200 MW solar project in the country.

What is the outlook for solar energy in Jordan?

Looking ahead, the outlook for solar energy in Jordan is positive. According to a report by the International Renewable Energy Agency (IRENA), Jordan is expected to increase its solar energy capacity to 2.7 GW by 2023, up from 1.7 GW in 2020.

Will Jordan increase its solar energy capacity by 2023?

According to a report by the International Renewable Energy Agency (IRENA), Jordan is expected to increase its solar energy capacity to 2.7 GW by 2023, up from 1.7 GW in 2020. This represents a significant increase in solar energy capacity and is expected to help reduce Jordan's reliance on imported fossil fuels.

AES Corporation and Mitsui & Co of Japan are already partners in The Amman East Power Plant (IPP1 project) and the AES Levant Power Plant (IPP4 project). Following the ...
