

Acumen EMS(TM) is contracted and deployed in 4 countries, with more than 90 sites, 60 MWh of ESS capacity, and rapidly expanding worldwide. 2022. Previous slide. Next slide. Our Leadership Team. John Gurski. PRESIDENT. Scott D'Ambrosio. VP, SALES. Adam Gerza. VP, BUSINESS DEVELOPMENT. Quinn Laudenslager . VP, PRODUCT.

The Global Telecom Electronic Manufacturing Services (EMS) Market Size accounted for USD 169 Billion in 2021 and is projected to achieve a market size of USD 321 Billion by 2030 rising at a CAGR of 7.4% from 2022 to 2030. Telecom electronic manufacturing services (EMS) are subcontracting services provided to telecom equipment manufacturers. The ...

The Global Energy Management Systems (EMS) Market Size accounted for USD 38.8 Billion in 2022 and is projected to achieve a market size of USD 142.3 Billion by 2032 growing at a CAGR of 14% from 2023 to 2032. Energy Management Systems Market Key Highlights.

Driven by Acumen AI's advanced algorithms and accurate forecasting, ETB Controller delivers exceptional energy storage project economics. This rebrand clarifies the product's purpose, aligning its name with its core function: control. Energy Toolbase is proud to announce the rebranding of its energy storage control software Acumen EMS(TM) to ETB ...

Our Energy Management System (EMS), Acumen EMS, will now be called "ETB Controller." Over the years, we are proud to have deployed our EMS across North America and far beyond, and with this rebranding to ETB Controller, we aim to provide a clearer understanding of what our product does and can achieve.

Energy Toolbase is proud to announce the rebranding of its energy storage control software Acumen EMS(TM) to ETB Controller. ETB Controller is a high-performance energy management system designed ...

Energy Toolbase is proud to announce the rebranding of its energy storage control software Acumen EMS to ETB Controller. ETB Controller is a high-performance energy management system designed to seamlessly deploy energy storage. Driven by Acumen AI's advanced algorithms and accurate forecasting, ETB Controller delivers exceptional energy ...

The Global Telecom Electronic Manufacturing Services (EMS) Market Size accounted for USD 169 Billion in 2021 and is projected to achieve a market size of USD 321 Billion by 2030 rising at a CAGR of 7.4% from 2022 to 2030. ...

In addition to ETB Controller, Energy Toolbase offers its powerful Acumen AI option for sites where economic dispatch is complex and requires a more advanced EMS to maximize economic benefit ...

Our sales team has more than quadrupled the number of contracted Acumen EMS deployments and grown our pipeline of future projects by an even larger magnitude. Our engineering teams have integrated our Acumen EMS controls with a dozen ESS hardware vendors, including Tier 1 providers such as BYD, Delta, and Socomec. Our operations and ...

The Energy Toolbase Acumen EMS(TM) (energy management system) was installed alongside an Eguana Technologies storage system for an engineering and construction company in Alberta, Canada. The goal was to determine how efficiently the Acumen EMS(TM) peak shaving algorithm could reduce demand for a facility with solar photovoltaic (PV) generation ...

connectivity, Acumen EMS has a fleet-level uptime average above 99.2%. ENERGY TOOLBASE: Monetize Your Energy Storage Asset 5 UNDERSTANDING ESS USE CASES The centrality of software to ESS applications is a marked departure from how solar photovoltaic (PV) power systems operate. "Software is not something you can leave out of

Over the years, Energy Toolbase has successfully deployed our Acumen EMS control software across nearly 150 sites throughout the United States, Mexico, Canada, South America, and beyond. Today, we're excited to announce its rebranding to better reflect its role in our energy storage solutions. Going forward, Acumen EMS will be known as "ETB ...

Energy Toolbase is proud to announce the rebranding of its energy storage control software Acumen EMS(TM) to ETB Controller. ETB Controller is a high-performance energy management system designed to seamlessly deploy energy storage. Driven by Acumen AI's advanced algorithms and accurate forecasting, ETB Controller delivers exceptional energy ...

Acumen EMS Control Center conduit entrances must use properly rated hubs/connectors sealed with fire rated compound to prevent moisture intrusion. CT leads should be ran in dedicated conduit, separate from current carrying conductors. Enclosure contains serviceable

Quinn Laudenslager, a 15-year industry veteran and Senior Product Manager for Acumen EMS(TM), shares his insights into the future of energy storage, the most pressing issues preventing more ESS to be deployed, and how our team is developing solutions to address those problems:
