

With the battery-buffered ChargePost ultra-fast charging station, ADS-TEC Energy offers a charging capacity of up to 300kW even if the power grid does not provide the desired power. Discover our ChargePost all-in-one system now - and join us ...

ADS-TEC Energy develops and produces battery-based platform solutions for the energy industry of the future. Our systems are complemented with comprehensive services and secure remote access to all operational data, enabling long-lasting and long-term operation. This way, we ensure that the future decentralized energy system in a CO2-neutral ...

ADS-TEC Energy has provided in this earning presentation financial information that has not been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS").

ADS-TEC Energy is a spin-off from the ADS-TEC Group. Its core business are intelligent decentralised energy platforms with integrated battery storage systems. ADS-TEC is convinced that an energy transition and a CO2-neutral society will only be feasible if the enormous fluctuations in power can be optimised and managed directly on site. Read more

Die ADS-TEC Energy ist eine Ausgründung aus der ADS-TEC Gruppe. Kerngeschäfte sind intelligente dezentrale Energieplattformen mit integrierten Batteriespeichersystemen. ADS-TEC ist davon überzeugt, dass eine Energiewende und eine CO2-neutrale Gesellschaft nur dann realisierbar sein werden, wenn die enormen Leistungsschwankungen direkt vor Ort ...

In 2021, ADS-TEC Energy was listed on NASDAQ through a SPAC merger (EUSG European Sustainable Growth). The listed ADS-TEC Energy PLC is based in Ireland. Its wholly owned subsidiary ADS-TEC Energy GmbH continues to be headquartered in Germany. In the USA, a 100% subsidiary (ADS-TEC Energy Inc.) of ADS-TEC Energy GmbH followed, which is located ...

About ADSE. ADS-TEC Energy PLC engages in the provision of intelligent and decentralized energy storage systems in Europe and North America. Its portfolio of ecosystem platforms provides DC-based ultra-fast chargers for Electric Vehicles (EVs) on power limited grids; and energy storage and management solutions for commercial and industrial, and residential ...

ADS-TEC Energy and Caverion are broadening their cooperation to include Denmark and Sweden. This move comes just weeks after solidifying their agreement for Norway. ADS-TEC Energy specializes in providing battery-buffered fast charging solutions, which facilitate ultra-fast EV charging on constrained power grids.

ADS-TEC Energy (NASDAQ: ADSE), a global leader in battery-buffered, ultra-fast charging technology and large-scale storage, today announced that it has installed eight large-scale storage containers, the most powerful modular large-scale storage solution in Sweden, with a total capacity of over 20 MW, for sustainable infrastructure development ...
