Now then the battery system. So, I produce 4.4KWH with my 15 Solar panels but I have room on the roof for maybe 3 more and if we puzzle maybe even 5 more instead of 3. So I would like a saltwater battery system since that's better for the environment, Lithium batteries have a bit of an impact on the environment in their production.

Same thing if you wanted to have a larger array you needed too many strings of batteries to get the charge rate you wanted. I never used them just trouble shooted a battery bank for someone. I found that flooded lead acid beat them even factoring in midlife battery change out. That was 3 years ago maybe prices have changed. Cheers, David
