

Who is ampowr?

Ampowr B.V. - We Provide Cutting-Edge Battery Energy Storage Systems We create next-generation energy storage systems, transforming the energy landscape with Smart Battery Energy Storage Solutions.

What kind of batteries does ampowr offer?

Ampowr battery range Our range of batteries is leading the energy transition, powering a wide range of industries and applications. Crystal Batteries Up to 3,100 cycles Crystal Batteries Nano Crystal Batteries NCPB 3,500 to 10,000 cycles NCPB Packs

Could Mongolia become a battery manufacturing hub?

“Mongolia has lithium assets, Mongolia is building manufacturing facilities, the University of Science and Technology is well-versed in hydrogeology - a joint venture between the public and private sectors could put this manufacturing capability in Mongolia,” Haji says - envisioning a greater role for the country in the global battery supply chain.

How does ampowr optimize energy assets for peak performance?

Our holistic solution autonomously optimizes your energy assets for peak performance, leveraging the synergy of advanced hardware and intelligent software. We provide cutting-edge battery systems integrated with our proprietary Energy Optimization Platform, Cosmos(TM). A unified energy ecosystem with Ampowr's all-in-one solution.

Who uses ampowr?

Trusted by businesses globally throughout a wide range of industries and applications. Ampowr is actively supplying products in over 50 countries. The power of innovation with our comprehensive exploration of business cases in energy storage systems. Ready to explore the technical brilliance of our products?

How many countries does ampowr supply products in?

Ampowr is actively supplying products in over 50 countries. The power of innovation with our comprehensive exploration of business cases in energy storage systems. Ready to explore the technical brilliance of our products? Elevate your understanding by downloading our comprehensive datasheets. Take a deep dive into the innovative world of Ampowr!

In commercial buildings, battery energy storage systems help manage energy demand, reduce peak charges, and provide backup power during grid outages. Integrated with solar PV systems, they store surplus solar energy for use ...

Crystal batteries are considered the safest and best performing lead based battery, with up to 99% recyclability. Crystal Batteries(TM) are a Military grade battery originally developed by the US Military to

overcome the shortcomings ...

Enter ION Energy, Mongolia's first lithium brine explorer. The company (listed on Canada's TSX Venture Exchange) has a license to explore lithium reserves in Sukhbaatar aimag and aims to export high-quality lithium ...

Energize all your off-grid or mobile projects. Portable power is essential for off-grid and mobile projects. Diesel generators are polluting and the prices of diesel are at an all-time high, leaving off-grid sites and mobile projects in need of a ...

Nano Crystal(TM) NCPB Battery Packs have a high energy density and 100% of their capacity available while providing a safe, reliable and powerful performance. View business cases ... Ampowr offers simple, unparalleled drop-in high ...
