The seller first sent an empty envelope and gave the track the number of the charging station, and sent the station itself only after 2 weeks. Packed chic. During charging, both coolers work on the sides: at the entrance and at the outlet of the air. Noisy but tolerant. I personally took this station for: 1. watching the telly 42 ". 2. for ...

The station was packed and loaded with 67%. It was impossible to bring a freezer, the start was written by 1.3 kW, and the start was also called by the pump up to 60 W. On the ice of the battle ice of the pidsvitka, vitrata

2 W. Charging for the first time on the street for 160, for the first time, for the next day, for the next time, for 2 years.
