

In a July letter celebrating the 25th anniversary of Moroccan King Mohammed VI's coronation, French President Emmanuel Macron announced a change in France's policy regarding the long-running Western Sahara dispute, declaring that "the present and future of Western Sahara lie within the framework of Moroccan sovereignty." That followed similar ...

development in Western Sahara. Following publication of the Joint Declaration, we want to take this opportunity to elaborate on Kosmos Energy's activities offshore Western Sahara and outline the compelling case for resource exploration there. This Joint Declaration is the latest evidence of our commitment to the region. From the beginning of our

The conflict in Western Sahara has been unresolved for fifty years. While Morocco is positioning itself as a pioneer in green energy, climate change is exacerbating the situation for the people in the Sahrawi refugee camps. To ensure they are not forgotten, the young activist Fatma Moulay is working tirelessly for justice. Sand and...

Within this approach, the researchers relied on close examination of secondary literature, namely two important studies carried out in both locations: Windfall: the exploitation of wind energy in the occupied Syrian Golan by Al Marsad and Green Washing Occupation: How Morocco's renewable energy projects in occupied Western Sahara prolong the ...

More recently, an attack inside Moroccan-controlled Western Sahara has highlighted the potential for further military escalation. On May 20, an alleged bomb attack reportedly targeted a segment of a 100-kilometer ...

Morocco drives renewable energy projects in Western Sahara. Morocco has claimed authority over Western Sahara since 1975, but the UN does not recognise Moroccan control, calling Western Sahara a "non-self-governing territory." The UN has called for a referendum to decide the region's future.

The Western Sahara is often described as Africa's last "colony," but the conflict there appears to be coming to a close. ... As Europe looks to the Sahara for renewable energy, the reality ...

To date, there have been relatively few reports on the wind environment of the Sahara Desert, which have mainly focused on two aspects: 1) the relationship between the wind environment and dune ...

The initial stages of another renewable energy project has been launched in the disputed Western Sahara region, which is under the control of Morocco. The Janassim project recently launched its measuring campaign ...

Saharawi women protest against US oil company Kosmos Energy exploration drilling in the occupied territories of Western Sahara, on 25 February 2015. In late 2014, Nordic oil rig companies and the US-based ...

Recently, we released a pragmatic review analysing how Western sanctions on Russian energy supplies will affect global efforts toward decarbonisation. The economic and political impacts of Russia's invasion of Ukraine have shifted the balance of power in the energy "trilemma" that faces policy experts and decision makers, as previously ...

Morocco risks implicating other states by exporting Western Sahara energy, for instance to the EU. The EU has promised not to import green energy from the territory, but is unlikely the EU will be able to differentiate energy generated in Morocco proper and energy generated in the occupied territory, as it will pass in cables under Strait of ...

Green energy in contested territories: The cases of Western Sahara and French Guiana. On the 11th of December of 2024, Dr. Roberto Cantoni explained how hydrogen production has ...
