Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW (12MW RER + 10MW utility).

Are Barbadians aware of solar energy usage & benefits?

Barbadians are aware of solar energy usage and benefits. Over the past few years, solar electricity systems have decreased dramatically in cost and more systems have been installed. As a result, the awareness level of Barbadians regarding solar energy has increased. In 2001, the installed capacity of solar PV in Barbados was 37 kW. Below is a list of the largest of these systems at that time:

The company has designed, supplied and installed off grid and grid field solar PV systems from 3 KWP to 15 KWP. Our company is committed to providing renewable energy systems to ...
