

Second on the battery back up is that they all run on battery and only can run for 10 hours once it goes off and if you are away from your house for longer than the ten hours then the battery will ...

What is the impact (pardon the pun :D) of dropping a battery? Does it matter what type? I've noticed (or think I've noticed) that alkalines don't seem to last as long if they are ...

What happens if I take the wrapper off a battery? If you cut the plastic off, the only thing holding the battery pack together is the small connections between the individual batteries that will ...
