

Who pays for solar energy in Bermuda?

The Bermuda Electric Light Company Ltd (Belco) has been ordered to pay for all solar energy put into its system by those with solar panels. Those who have been putting electricity into the energy grid without being reimbursed will receive backdated payments.

How much power do solar panels have in Bermuda?

The power of solar panels in Bermuda has increased from about 225 watts in 2012 to 330 watts today. Mr. Duffy estimates this is a 50% increase in power in the same footprint and a significant cost reduction.

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

What is a Bermuda solar pump?

Bermuda Solar Pumps are pumps powered by solar energy. With no running costs, you can enjoy the view with peace of mind.

Is Bermuda a suitable location for solar energy?

Bermuda is a suitable location for solar energy in several ways. Approximately 10,000 rooftops in Bermuda (out of a total of about 36,000 rooftops) are good candidates for rooftop solar because they face south and are not obstructed by trees or other buildings.

Will Bermuda alternate energy install 210 solar panels on Laffan Street?

Bermuda Alternative Energy is expected to install 210 solar panels on the roof of the City of Hamilton's works depot on Laffan Street. The panels will cover an area of approximately 3,785 sq ft. Roof fittings have been put in place, and the panels are expected to be attached during the coming weeks.
