There are whole home battery systems (TESLA) and then of course smaller systems down to portable power banks.. The issue with smaller battery power banks is time. You might get 12-24 hours for a fridge.

Having an emergency lantern stashed away in your home is an excellent choice in the current scenario. During a prolonged power outage, a lantern creates room-filling light that allows for more comfortable cooking, reading, and other necessary activities that you can't perform with a directional beam of a flashlight.

Cheap, solid app, good reputation, not too much fuss with battery replacement, reasonable (optional) yearly cost. Just recommended the same system to friends who bought it. This is a self-monitored alarm that cannot automatically contact emergency services! But it's a fraction of the cost of professional wired systems. Think 300EUR instead of 3k.
