The infamous Bloomberg Tier 1 ranking is commonly referred to as a bellwether in the solar industry for identifying the better solar panel brands. It is important to note that this ranking only looks at each manufacturer's bankability. This is important because the business will need to be around for 25-30 years if you expect them to honour their lengthy warranty terms.

Looking ahead to 2024, Rwanda's solar energy roadmap envisions a substantial increase in installed solar capacity. The country aims to generate a significant percentage of its total electricity from solar sources, further reducing its carbon footprint. The widespread adoption of solar energy is expected to drive economic growth, create jobs ...
