

What is bigbattery?

BigBattery is your one-stop shop for a wide assortment of high-capacity LiFePO4 battery solutions. Our batteries power everything, including homes, RVs, campers, golf carts, forklifts, and other equipment. Our core purpose here at BigBattery is to promote the mass adoption of renewable energy solutions.

Is BigBattery a good company?

BigBattery is a trusted name in the solar energy industry offering cutting-edge battery solutions for residential and commercial applications. They focus on performance, reliability, and sustainability, delivering high-capacity energy storage systems that maximize the efficiency of solar power generation.

Does bigbattery use lithium ion batteries?

BigBattery's off-grid lithium battery systems utilize only top-tier LiFePO4 batteries for maximum energy efficiency. Our off-grid lineup includes the most affordable prices per kWh in energy storage solutions. Lithium-ion batteries can also store about 50% more energy than lead-acid batteries! Power your off-grid dream with BigBattery today!

Are bigbattery batteries good?

Its batteries are backed by an outstanding 10-year warranty, so they are made to last the test of time. While BigBattery offers deep cycle batteries specifically designed for golf carts, vans, RVs, and various industrial applications, its off-grid solar batteries are the company's best-selling products and clear specialization.

What is a bigbattery battery pack?

BigBattery industrial lithium battery packs were designed as a plug-and-play option for electric commercial and industrial vehicles currently using lead-acid batteries. By switching to BigBattery lithium, your vehicle will gain more power and have less weight with increased operational hours.

Are bigbattery solar batteries safe?

BigBattery off-grid solar batteries, made in the US, are the safest and most secure option for any solar application. With built-in BMS and numerous safety features, you can rest easy and let our solar battery do the work for you. We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application!

each battery has a spec sheet available at BigBattery . The Max Charging Voltage should be observed. Then power on your charger (without connection to a battery or busbar) to ensure ...

2ND GENERATION POWER IS HERE! This 15.36kWh kit includes (2) of our our all-new 72V LiFePO4 RAPTOR 2s with all the needed kit components included for an effortless installation. BigBattery's state-of-the-art RAPTOR 2 is a game ...

BigBattery's next-gen, marine-grade lithium solutions offer greater energy density, faster charging, and more efficient power delivery than lead-acid options. With 2nd-gen features, advanced ...

BigBattery off-grid solar batteries, made in the US, are the safest and most secure option for any solar application. With built-in BMS and numerous safety features, you can rest easy and let our solar battery do the work for you.

REVOLUTIONIZING RESIDENTIAL ESS! BigBattery's 48V ETHOS systems are here, and this 20kWh configuration is the ideal solution for off-grid power in your family homestead, cabin, or mansion, supported by comprehensive safety, ...

With a focus on performance, reliability, and sustainability, BigBattery delivers high-capacity energy storage systems that maximize the efficiency of solar power generation. These advanced lithium-ion batteries are designed to store excess ...
