

What is BigBlue solar power?

BigBlue combines portable power station with solar panels to create mobile solar generator and home backup power supply, making clean and safe energy available everywhere.

Does BigBlue offer photovoltaics?

Over the years, thanks to the growing public interest and innovative technology, BigBlue has launched internationally recognized photovoltaics in addition to solar panels, not to mention a diverse range of highly targeted consumer and professionally installed energy storage systems.

What do you know about BigBlue?

More than you wanted to know about the 'blue'. Among the world's famous renewable energy solution providers since 2007 - Explore BigBlue's most reliable and high-performance energy storage systems, portable power stations, solar panels, and solar chargers for your home grid & off-grid lifestyle.

Why should you choose BigBlue ETFE solar panels?

Crafted for the modern explorer, BigBlue ETFE solar panels embody durability and efficiency, standing up to the challenges of the road, sea, or wilderness. High-strength Japan-produced ETFE layer that is corrosion and stain-resistant but retains its clarity with an energy conversion up to 23%.

The new POWAFREE series offers affordable solar storage in a simplified design. Capture solar power during the day and store excess energy for later use, with optimized energy management to power your home more efficiently.

Among the world's famous renewable energy solution providers since 2007 - Explore BigBlue's most reliable and high-performance energy storage systems, portable power stations, solar panels, and solar chargers for your home grid & off-grid lifestyle.

As ever, BigBlue has adapted the exalted electrical vehicle grade lithium iron phosphate (LiFePO<sub>4</sub>) battery. Compared to the most market-found ternary portable power stations, which use lithium-ion or lead acid; the CellPowa 2500's LiFePO<sub>4</sub> portable power station is safer as better stability at high temperatures and has a longer life span (at least 4 to 5 times longer), ...

The SolarPowa solar charger series (SolarPowa 36, SolarPowa 28, SolarPowa 14) continues to harness power for your road trip, sailing adventure, beach gateway, or camping trip with an energy conversion of up to 24% into free ...

The maximum nominal / rated output of the SolarPowa 30 solar charger is rated based on the Standard Test Conditions (STC) - the industry-wide standard for the conditions under which a solar panel is tested. The test

conditions are defined as irradiation 1000 W/m<sup>2</sup>;;, temperature 25°C, and air mass 1.5.
