

Does Bloemfontein have water restrictions?

While water restrictions are required for the Greater Bloemfontein Water Supply System within the Orange River System, the department has not recommended any restrictions within the Orange River Project for this operating year, which runs from May 1, 2023, to April 30, 2024.

Does Bloemfontein have a pump station?

Katiso Mokoena, civil engineer of the Bigen Africa group, says the pump station has formed an integral part of Bloemfontein's bulk water distribution network since the early 1940s. The upgrade is intended to increase the pump station's efficiency. "The new pump set will have a maximum delivery capacity of 600 l/sec at 51 m head," explains Mokoena.

What is the synergy between bloemwater and Brandkop?

Bloemwater and Brandkop now work in synergy, with electricity requirements for the head office being met from the Brandkop supply reservoir. There is also a greater synergy between the various components, as they need to be operated and regulated collectively. Bloemwater has successfully exploited this productive synergy between the two.
