

Last September, a KPMG report commissioned by ESI and Greentech Skillnet outlined that the energy storage sector has a key role to play in helping Ireland reduce carbon emissions and provide cleaner, cheaper energy to Irish consumers. It also stated that the sector could create thousands of new jobs by 2035. One person who can provide insights into this is ...

Bobby Smith, president of the representative group Energy Storage Ireland, sits down at Energy Storage Summit 2024 to discuss the past, present and future of energy storage for the country. In terms of the current state of affairs for Ireland, energy storage, despite being in its infancy, has had a strong introduction to the renewable energy ...

Delighted to announce the launch of Energy Storage Ireland's "Protecting Consumers" report with Baringa. This report shows that battery storage can unlock up to EUR35 million in electricity price savings this winter with some simple policy changes from our energy regulators.

Presented by Bobby Smith Bobby is Head of Energy Storage Ireland (ESI). Bobby has been working with ESI members for nearly three years to promote the development of energy storage on the island and remove barriers to the integration of new flexible technologies. Previously, Bobby worked as
