

What is the Bess consortium?

The BESS Consortium is a multi-stakeholder partnership set up to ensure these BESS benefits transform energy systems across low- and middle-income countries (LMICs). The Consortium is on track to meet its target of securing 5 GW of BESS commitments by the end of 2024 and deploying these by the end of 2027.

Why is Barbados partnering with the Bess consortium?

Barbados is committed to playing a leading role in urging concrete deliverables on climate and climate financing. We are here with the BESS Consortium today because we support their efforts to improve access to battery energy storage systems as part of the energy transition in countries like ours.

Which large-scale Bess projects are coming to Sweden in 2024?

That announcement coincided with two large-scale BESS in Sweden being progressed by their owners. IPP Ilmatar now has a 50MW PV, 20MW BESS in Knihult fully permitted to start construction in 2024 while developer SENS has signed a land lease in Hallsberg for a 50MW, earlier-stage project.
