

3 ???&#0183; From 2001 to 2020, the world lost nearly 1.4 million hectares (about 3.5 million acres) of trees due to mining, with Indonesia having the highest loss, according to an analysis by the ...

Indonesia is a country that is booming economically and demographically. This not only matters for regional, political, and energy security, but also increasingly, for the world's energy transitions, due to Indonesia's large metal reserves, as well as its equally important coal consumption in industry and for power generation. Over the last 20 years, Indonesia's ...

Meet our BOOM POWER team!?? We'll be at Burnhead Community Centre all day to share more information about our proposals for a new battery energy storage system at Aitkenhead Farm and allow you the opportunity to share your thoughts?? - we hope to see you there! ?
