

Why is Brazilian natural gas reinjected?

Most of Brazil's natural gas output is reinjected rather than sold in the domestic market. Reinjection is used to improve oil recovery. Petrobras is Brazil's largest natural gas producer.

Who produces the most natural gas in Brazil?

As of July 2023, Petrobras produced 64.8% of Brazil's natural gas, according to Brazil's energy regulator called the National Agency for Petroleum, Natural Gas and Biofuels (ANP). Other producers of natural gas include the domestic company, Eneva, and three major international companies: Shell, Galp, and Repsol.

What is Brazil's energy mix?

Brazil's energy mix is diverse; hydropower, fossil fuels, biofuels, wind energy, and solar power all make significant contributions (Table 1). Brazil's total energy production increased by an average annual growth rate of 1.5% from 2011 to 2021.

Why do some companies work with Jascon?

That's why some of the best known companies work with us. Jascon believes in the future of electric vehicles. We make lithium-ion battery packs for such buses and trucks, delivering a cleaner and safer solution than other powertrains with reduced noise levels and localized emissions. Our design for a rechargeable battery pack is safer and better.

How much energy is produced in Brazil in 2021?

Brazil's energy production in 2021 accounted for 2.0% of global production and 48.8% of South America's total. Energy consumption in Brazil increased by an average annual growth rate of 0.5% between 2011 and 2021, compared with 3.3% between 2000 and 2010, driven by Brazil's real GDP per capita growth (Figure 4).

What is Marlim Azul Energia?

Bruno Chevalier, CEO of Marlim Azul Energia, said, "Our goal is to make energy generation from Brazilian pre-salt gas a reality. Mitsubishi Power's tailored solution for a 565 megawatt plant will enable us to lead the energy transition in South America."

Jascon Energy offers IP 67 batteries for E-Scooter, E-Bike, E-Rickshaw, E-Passenger, Automatic Guided Vehicles, Robotics, Marine, Bus, Trucks & Energy Storage system. High energy density of up to 172Wh/Kg and ergonomic ...

Jascon believes in the future of electric vehicles. We make lithium-ion battery packs for such buses and trucks, delivering a cleaner and safer solution than other powertrains with reduced noise levels and localized emissions.
