The solar industry in Israel is not a big market in terms of solar installations like in Europe and the US, but its huge market in terms of technology and opportunities. Since the government law on 2008, thousands of installations of 5 KW up to 50 KW are taking place daily and the local companies are working above 100% capacity.

A implementação do Autoconsumo, com recurso a painéis solares fotovoltaicos, permite produzir localmente a sua própria energia. Assim contribui directamente para a redução dos custos energéticos e na melhoria da eficiência energética da habitação ou empresa.

Israel's solar-friendly environment "Israel is a great place for start-ups" like SolarPaint, Maimon reflects, describing a collegial atmosphere in which "it's not a competition [but rather] a synergy." The company has forged enduring partnerships with academics, entrepreneurs and manufacturers throughout Israel.
