

Will Daewoo build gas-fired power plants in Libya?

South Korean engineering and construction giant Daewoo announced signing a contract with the General Electricity Company of Libya (GECOL) to build gas-fired power plants in Libya. According to the Korea Herald, the value of the construction deal is \$790 million. Under the agreement, Daewoo will build gas-fired power plants in Mellitah and Misurata.

Could this be Libya's first private sector solar PV plant?

Cork-based AG Energy, with links to the former Irish Taoiseach Bertie Ahern, is in line to build what could be Libya's first private sector solar PV plant. Qatar-based Urbacon Trading and Construction (UCC) has been authorised to build a large gas-fired plant in Zliten.

When did Daewoo enter the Libyan market?

Daewoo entered the Libyan market in 1978, even before the establishment of diplomatic relations between South Korea and Libya, and since then, the company has completed 163 projects across the country, with an estimated total value of \$11 billion.

Cork-based AG Energy, with links to the former Irish Taoiseach Bertie Ahern, is in line to build what could be Libya's first private sector solar PV plant. Qatar-based Urbacon Trading and Construction (UCC) has been ...

Building an RC battery with Maker Battery modules is surprisingly easy. Just follow the steps below to build your own RC battery! Step 1: Measure module voltage. Start by measuring the voltage of all of your cell modules to ensure that they're all more or less identical. They can be off by a few hundredths, but any more than that might ...

In 1949, Libya and Somaliland became laboratories for a new method of state creation that one observer referred to as the "deadline method":¹ when the victorious Allies could not agree on the fate of the Italian colonies after World War II, decision-making was left to the General Assembly, which stipulated that both Libya and Somaliland were to become sovereign ...
