

What can I do with my stored energy?

You can use this energy to power the devices and appliances in your home day and night, during outages or when you want to go off-grid. With customizable power modes, you can optimize your stored energy for outage protection, electricity bill savings and more.

Is X1 a good energy storage system?

Most energy storage systems suffer from power output drops when the temperature rises. Not X1. It maintains 100% power even at 131°F thanks to its modular design and cooling system. The die-cast body creates an IP65-rated seal that makes X1 dust- and water-resistant. You're also protected for a decade with a 10-year warranty.

What kind of batteries do you need for your energy storage system?

Design an energy storage system for your home, business or RV with a safe, simple, reliable and practical lithium ion battery solution. Sealed maintenance-free batteries using fine-glass to hold electrolyte. AGM (Absorbed Glass Mat) batteries range from models ideal from very high to low-temperature environments.
