

Where should a will be stored?

If you choose to store a will in your home, the safest bet is a fireproof, waterproof safe or lockbox. There are plenty of reasonably priced options available that are great for storing a will. As with any other storage place, let your loved ones know where your will is located so that they can quickly find it after your death.

Where is the safest place to store a will?

A safe deposit box is considered by many to be a safe place to store a will. However, it's important to note that different states have specific laws regarding when a safe deposit box can be opened upon the owner's death and what documentation is required to do so. This could potentially cause delays in the probate process.

Should you store a will in a lockbox or safe?

If you don't store it in a secure lockbox or safe, it might be too easy for others to find it and take a peek--or even try to change items in the will. If you choose to store a will in your home, the safest bet is a fireproof, waterproof safe or lockbox. There are plenty of reasonably priced options available that are great for storing a will.

Can a lawyer store a will?

If an attorney drafted your will and is willing to store it, you might want to consider your attorney's law office as one option for storing your will. Pros: Some firms, especially larger ones, might have strong security measures, such as safe deposit boxes or vaults for storing clients' documents.

Should a will be kept in a home safe?

The will is yours to take at any time. A home safe. Keeping your will in a home safe is an acceptable option, but only if your executor and your alternate executor know where the safe is and have access to your home and to the safe itself.
