

Why should you choose Caterpillar Energy Power Systems Australia?

With Caterpillar's Sustainable Energy solutions, EPSA ensures reliability and efficiency across industries. Trust EPSA for your power needs, backed by Cat's Finance options and a global dealer network warranty. Learn more about how you can power up your career with Energy Power Systems Australia.

Where is Caterpillar located in Australia?

Caterpillar's Australia locations include Melbourne, Queensland, and Redbank. Our brands, such as Cat's and Solar, serve local customers in many major industry segments.

What is Caterpillar's microgrid?

Keep your industries producing, communities developing, and people connected. Caterpillar is at the forefront of the energy transition, integrating renewable power with smart energy storage and conventional diesel or gas fuelled power generation. The Cat Microgrid system, which contains both photovoltaic solar modules and energy storage, provides:

What are Caterpillar brands?

Today, Caterpillar brands such as Cat's, FG Wilson, Perkins, Solar and EMD serve local customers in major industry segments including general construction, mining, oil and gas, marine, power generation, government and defense, forestry, waste, quarry/aggregates, paving and technology.

When did Caterpillar start in Australia?

1955: Caterpillar of Australia established. 1956: Hundreds of Caterpillar machines prepare sites for major sporting events in Australia. 1967: Caterpillar machines and engines work on construction of a 256-mile railroad between Mount Newman and Port Hedland.

Where do Caterpillar technology subject matter experts work?

Our Caterpillar technology subject matter experts work today on autonomous and remote-controlled mining equipment at mine sites throughout Australia. Our Melbourne Distribution Centre (Victoria) and Queensland Distribution Centre distribute parts to local customers.

The global construction company Caterpillar has announced its very "integrated micro-grid solution" which reportedly utilizes solar photovoltaic panels and units to store the energy in. It is going by the name Cat Microgrid ...

Australia's largest rail freight company, Aurizon, has contracted with Progress Rail to build the first zero-exhaust emissions freight locomotive constructed in the country, retrofitting an existing 4000 class locomotive to a battery electric locomotive. ... Solar Turbines, Progress Rail, Caterpillar Energy Solutions and Cat Defense that ...

62,400 Cat thin-film solar panels mounted on a single-axis tracker system. 260 solar inverters. Seven 1 MW transformers. Cat Microgrid Master Controller (MMC) integrated with the pre-existing power plant's SCADA system through customized programming. Cat Connect Remote Asset Monitoring. Four Cat CM32 heavy fuel oil (HFO) generator sets

CHOSÉS & SAVOIR : CATERPILLAR EN AUSTRALIE. 1913 : Des représentants de Holt Manufacturing Company sont envoyés en Australie pour démontrer les qualités des tracteurs & chaînes Holt. 1949 & 1974: Des machines Caterpillar participent aux travaux de construction du plan d'aménagement hydro-électrique des Snowy Mountains, l'un des plus importants projets ...

That objective was put into action this week as Caterpillar and Rio Tinto signed an agreement focused on developing Caterpillar's integrated zero-emissions site solutions. This agreement will deliver the world's first fleet of Cat's 793 zero-emissions autonomous haul trucks to support Rio Tinto's mining operations in Western Australia.

As the authorised supplier of Cat's power systems in Australia, PNG, and the Solomon Islands, we provide new and used engines, generators, and hybrid energy systems for a broad range of industries. We also offer rental solutions ...

Derrick York has been named president of Solar Turbines, a wholly-owned subsidiary of Caterpillar, and senior vice president of Caterpillar, Inc. Solar Turbines is a global leader in the design, manufacture and service of gas turbine systems and compressors for the oil and gas and power generation industries.

The two newest partners that we are excited to work with are Major League Soccer and the National Hockey League. Internationally, we partner with Jack Miller in MotoGP, the Crusaders in Super Rugby (Australia, Fiji, New Zealand, and the Pacific Islands), Cat Ladies Golf in Japan, and the Chinese Basketball Association.

Cat's Solar Panels Uphold Responsible Mining and Sustainability. Cat's solar panels help reduce dependence on fossil fuels. ... Roy Hill, the largest iron ore facility in Western Australia, needed a temporary power source for its expanding mine site, which was under construction in a remote area of Australia. The plan included a new mine, a ...

The IMEA showed continued confidence in Altorfer and Caterpillar by commissioning a 500-kW solar PV utility-scale demonstration project in St. Charles, Illinois, as part of a 20-year power purchase agreement. Featuring more than 4,800 Cat solar panels, the facility began generating power in late 2017.

Cat photovoltaic solar modules are low maintenance, easy to install, and tested beyond industry standards and generate more power than multi-crystalline silicon modules. And your Cat dealer is with you from delivery of your system to service, financing, parts, ...
