

How many solar panels has Mister Green installed in Aruba?

We have installed over 10,000 solar panels in Aruba since Mister Green was founded in 2016. We are proud to be the only company in Aruba that is fully focused on our customers keeping these two things in mind: How can you start saving money as soon as possible? How can we make the transition to sustainable energy, as easy as possible?

What is the cost of electricity in Aruba?

The energy landscape of Aruba, an autonomous member of the Kingdom of the Netherlands located off the coast of Venezuela, is outlined in this profile. Aruba's utility rates are approximately \$0.28 per kilowatt-hour (kWh) (below the Caribbean regional average of \$0.33/kWh).

How much money can I save with a solar panel installation?

The money you save with your new solar panel installation is comparable to the monthly amount you pay to Mister Green. Your current financial situation does not change! The solar panel system is completely paid off within 3 to 4 years. You will save money on your electricity bill for at least another 15 years.
