

Why should you attend China International Energy Storage Expo?

At China International Energy Storage Expo (EESA EXPO), Asia's premier energy storage exhibition, the road ahead is paved with countless opportunities. From connecting with 350,000+ of your peers to doing business with 1500+ exhibitors, it's an exhibition that yields benefits throughout the entire year.

How has China developed the energy storage industry?

The Chinese government has promulgated many policies to promote the development of energy storage. The energy storage industry had ushered in a period of development with the release of the 13th Five Year Plan (National Development and Reform Commission, 2016; China Energy Storage Alliance, 2021).

How big is China's power storage industry?

Industry estimates show that China's power storage industry will have up to 100 million kilowatts of installed capacity by 2025, and 420 million kW installed capacity by 2060, attracting related investment of over 1.6 trillion yuan, said Li Jie, general manager of power storage at State Grid Integrated Energy Service Group Co Ltd.

What are the development stages of China's energy storage industry?

The main conclusions are as follows: 1) from 2010 to 2020, China's energy storage industry experienced three development stages: the foundation stage, the nurturing stage and the commercialization stage.

What is energy storage in China?

New Energy Storage Policies and Trends in China Energy storage development in China is seeing new trends emerge. First, energy storage technology is a multi-disciplinary, multi-scale integration of science and technology. Chemical and physical energy storage technologies involve electric power, machinery, control and other aspects.

Can China commercialize energy storage industry?

From 2017 to 2020, China experienced a preliminary exploration period for the commercialization of energy storage industry. The National Energy Administration promulgated the "Guiding Opinions on Promoting Energy Storage Technology and Industry Development (2017)," which first clarified the strategic position of energy storage.

In the long run, energy storage will play an increasingly important role in China's renewable sector. The 14th FYP for Energy Storage advocates for new technology breakthroughs and commercialization of the storage industry. ...

In June 2023, China achieved a significant milestone in its transition to clean energy. For the first time, its total installed non-fossil fuel energy power generation capacity surpassed that of fossil fuel energy, ...

China is committed to steadily developing a renewable-energy-based power system to reinforce the integration of demand- and supply-side management. An augmented focus on energy storage development will ...

Eventbrite - Guangdong Energy Storage Industry Association presents The 10th World Battery & Energy Storage Industry Expo (WBE 2025) - Friday, August 8, 2025 at No.380, Yuejiang ...

The China Energy Storage Alliance is a non-profit industry association dedicated to promoting energy storage technology in China. ... CNESA is China's 1st and biggest non-profit industry association dedicated to promoting energy storage ...

World Battery & Energy Storage Industry Expo scheduled on August 08-10, 2025 at Guangzhou, China is for the researchers, scientists, scholars, engineers, academic, scientific and university ...

On October 11, 2017, China released its first national-level guiding-policy document covering energy storage. The document, "Guiding Opinions on Promoting Energy Storage Technology ...

2024 China Energy Storage Industry Ecology Conference. 2024 World Hydrogen Energy Industry Conference. 2024 Two-Day Factory Tour Program. Exhibitor Profile . 1)All kinds of Batteries, ...

Zhejiang International New Energy Storage Exhibition 2025. In the context of the rapid development of China's new energy storage industry, many places have identified new energy storage as a key development industry, and the demand ...

2024 China Energy Storage Industry Ecology Conference. 2024 World Hydrogen Energy Industry Conference. 2024 Two-Day Factory Tour Program. Exhibitor Profile. 1)All kinds of Batteries, ...

Giving overseas buyers a first-hand and in-depth look at China's leading battery and battery equipment manufacturers, the highly recommended two-day factory tour program will make a grand comeback in 2024. We look ...

the largest, most professional, and international energy storage show in China, acclaimed as the barometer and indicator for the development of China's energy storage industry. Besides Conference, Exhibition and Competition, there are ...
