Specialties: Title 24 energy calculations are a crucial component in the construction process, mandatory for new constructions, additions, and Accessory Dwelling Units (ADUs). These calculations are a part of the California Building Energy Efficiency Standards, designed to ensure that buildings are constructed and modified in a way that promotes energy efficiency and ...

This installation is located in the Karoo area and was completed by Gerrit Terreblance and his team from MiSolar. The system uses two of TBB's flagship products, one being the CK8 off-grid transformer-based inverter (with Solar and generator hybrid, back-up, DC and AC coupling system functions) and the other being the SP120-150 MPPT Charge Controller.

I would highly recommend Joule energy Solutions. They have great Solar solutions that will suite all of your needs, and your pocket, and with knowledgeable staff working together makes the experience very pleasant.
