

Installing a precast concrete slab for your air conditioner is simpler than assembling that baffling IKEA furniture. Follow these steps carefully to ensure your AC unit rests in a solid, level paradise.

**Forced Air Cooling** One of the most common ways to dissipate heat from control cabinet enclosures is through forced air cooling. This method uses a fan or blower to circulate cool air ...

**Types of Enclosure Air Conditioners** How Enclosure Air Conditioners Are Made Industries That Use Enclosure Air Conditioners Enclosure air conditioners are typically made with a combination of metals and plastics that help keep the internal components safe from corrosion and other environmental factors. The configuration of these units is also important as they must provide adequate cooling while still being able to fit into tight spaces. See [more on zero](#)
