

The Republic of Congo is preparing to launch a Gas Master Plan and new Gas Code, enticing investment in crude exploration and production. Speaking during a press conference at African Energy Week 2024, Bruno Jean-Richard Itoua, the country's Minister of Hydrocarbons, outlined how these policies will drive oil and gas projects forward. Leveraging ...

While the country has abundance for hydro-based power generation, the country's production of different fossil fuels such as coal and natural gas is modest and very limited. The DRC's total hydropower capacity is about 100,000 MW, with the Inga dam solely counting for 40,000-45,000 MW.. Energy Access

The fireside chat was a prelude to the Congo Energy & Investment Forum (CIEF) - organized by Energy Capital & Power - taking place March 25-26, 2025. As sub-Saharan Africa's fourth largest oil producer, the Republic of Congo has ambitions to accelerate diversification through investments in natural gas infrastructure.

The Republic of Congo's energy sector is ripe for investment. The absence of reliable power grids and adequate electrical distribution has a dampening effect on investment and development, as potential investors typically have to provide their own power generation to operate effectively.
