I don't think any or very few companies have a wifi enabled solar generator. I know pecron has their E1500LFP (can't remember actual model) but it has wifi and built AC charger. It ships later in September though. I don't mind the external charging block since I charge by solar or if I am at home, charging block is fine. Efficiency appears good ...

Pecron E2000LFP Real-World Testing- 1920Wh of power on tap with 2000W of output makes for a very capable portable power station. If you're worried about being able to maintain basic electrical services to your home during a blackout (or you need portable power for activities like camping) the Pecron E2000LFP is well worth considering.

The solar input on the Bluetti can accept only 900W compared to 1200W for the Pecron. But the most significant selling point of the E2000LFP remains its unmatched price at \$1499 compared to \$1899 ...
