

We are developing battery storage projects from green field to construction and into operations. After the Final Investment Decision is taken, we typically divest up to 80% of the project and keep the commercial and technical management ...

Danish Center for Energy Storage, DaCES, is a partnership that covers the entire value chain from research and innovation to industry and export in the field of energy storage and conversion. The ambition of DaCES is to strengthen ...

We are actively deploying storage plants across multiple locations in partnership with key market players and supported by funding from EUDP and EU Horizon. Additionally, we have a maturing pipeline of more than 1 GWh, with projects of ...

Thermal Energy Storage (TES) is a pivotal technology in advancing sustainable district heating systems. By storing excess thermal energy generated from various sources, TES helps balance energy supply and demand, enhances ...

Renewable energy investor Copenhagen Infrastructure Partners (CIP) has confirmed that its 500MW/1,000MWh battery energy storage system (BESS) in Scotland, UK, is ready to commence construction. The project, ...

Plan B Energy Storage (PBES) is the industry leader in MWh grid and marine solutions, delivering the most safe and powerful systems in the world. In 2016, PBES has been awarded several energy storage contracts in ...

VEKS (municipality-owned heat transmission company) and HTF (consumer-owned heat distribution company) have implemented a Pit Thermal Energy Storage (PTES) in Høje Taastrup to provide flexibility to the electricity ...

Developer Better Energy is deploying its first battery energy storage system (BESS), a 10MW/12MWh system, at one of its solar PV plants in Denmark. The company is installing the 1.2-hour duration BESS project at its ...
