

What is a cuberg battery?

SOLUTIONS Cuberg builds powerful, lightweight and safe batteries for high-performance electric mobility. Built to Scale Cuberg technology uses a lithium metal anode and proprietary liquid electrolyte to simultaneously solve the interlocking challenges of battery performance and manufacturability. Company launched.

Where is cuberg based?

Cuberg expands into 7,000 sf of labs and offices in Emeryville, CA and begins developing its pilot production capabilities. Cuberg flies the world's first quadcopter powered by its safe lithium metal battery and demonstrates a 70% increase in flight time.

What is cuberg energy storage?

Cuberg builds high-performance energy storage solutions for the world's most demanding mobility battery applications.

Why did Northvolt acquire cuberg?

Cuberg receives independent validation from the US DOE proving the performance and cycle life of its lithium metal cells. Northvolt acquires Cuberg to bring next-generation battery technology to scale. Cuberg's 5Ah lithium-metal cell is externally validated at 380 Wh/kg.

Are cuberg batteries suitable for electric aviation & automotive sectors?

Combining high specific energy, power output, heat tolerance, and a safe design makes Cuberg batteries ideal for the electric aviation and automotive sectors. If you'd like to learn more about our products or discuss a potential partnership, please contact us using the form below.

What is Northvolt & cuberg's aviation battery system strategy?

Northvolt and Cuberg announce a vertically integrated aviation battery system strategy, including modules, packs, and system components, based on lithium metal cell technology. Cuberg displays an aviation-specific module based on lithium-metal anode technology at the Paris Air Show.

On November 21, 2024 (the "Petition Date") Cuberg, Inc. filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code. The Debtor's case was assigned case no. 24-90578 in the U.S. Bankruptcy Court Texas Southern District (the "Bankruptcy Court") Complex Docket division office. The Debtor is being represented by The Law Firm Haynes and Boone, ...

Cuberg is part of Northvolt, a global supplier of sustainable, high-quality battery cells and systems. As Northvolt's Advanced Technology Center operating in Silicon Valley, Cuberg is focused on the full spectrum of lithium-ion and lithium metal battery R& D and commercialization. As we mature our technologies, we can leverage Northvolt's ...

The results demonstrated that Cuberg technology continues to lead the advanced battery industry. External validation of cell performance is crucial for mobility companies evaluating battery product fit for their vehicles. The full validation ...

Cuberg's technology, combining the power of lithium metal with the manufacturability of lithium-ion, represents a straight-shot for commercializing a new generation of batteries. It's still not going to be easy, but batteries aren't easy. More news. 20 August, 2024.

The results demonstrated that Cuberg technology continues to lead the advanced battery industry. External validation of cell performance is crucial for mobility companies evaluating battery product fit for their vehicles. The full validation report will be published in 2024. See reports. Specific energy at D/20. 395. Wh/kg.

Cuberg spun out of Stanford University in 2015 with the goal of commercializing next-generation battery technology based on a groundbreaking liquid electrolyte combined with a lithium metal anode. Cuberg counts ...

Publication/Patent Number: US20240063440A1 Publication Date: 2024-02-22 Application Number: US18/451,004 Filing Date: 2023-08-16 Inventor: Thomas, Alun Assignee: Cuberg, Inc. IPC: H01M10/0585 Abstract: Described herein are lithium-metal unit cells and methods of fabricating such cells. A lithium-metal unit cell comprises a negative electrode, a positive ...

Northvolt knows batteries -- well -- and it seems to be impressed in what Cuberg has accomplished in its 6 short years of life, including its efficient operations. "The Cuberg team has shown exceptional ability to develop world-class technology, proven results and an outstanding customer base in a lean and efficient organization.

Cuberg, Inc. is a company that provides Aerospace, Petroleum industry, Aviation and more. Cuberg, Inc. is headquartered in United States California. Cuberg, Inc. was founded in 2015. Cuberg, Inc. has a total of 17 patents . Related Topics.

Cuberg batteries use a pure lithium metal anode. Traditional lithium-ion batteries rely on graphite for their anode structure, which adds weight and reduces energy density compared to our innovative technology. Cuberg's proprietary electrolyte enables safe and scalable commercialization of this groundbreaking chemistry.

Cuberg is an advanced battery systems company located in Silicon Valley, California. We develop and commercialize next-generation battery systems technology to enable new electric mobility applications. Cuberg is a fully owned subsidiary of Northvolt, a gigascale manufacturer of sustainable and high-quality battery cells and systems.
