

Our battery pack with efficient construction and patented cooling system, as well as 48-V standard battery systems for electromobility, are examples of our groundbreaking developments. Our mission is to ensure resource ...

e.battery systems is a multidisciplinary battery producer which has become adept at developing customer-specific solutions. At the nexus of standard systems and bespoke battery systems, we implement extraordinary projects across the ...

Dieses System verkörpert unser Engagement für den Umweltschutz und die Kreislaufwirtschaft, indem es Ressourcen schont und die Lebensdauer bestehender Batterien verlängert. Das Herzstück unseres ESS, ein patentierter 67,5-kW-Umrichter, garantiert eine optimale Energieumwandlung und -steuerung.

The story of e.battery systems and AKKU Master is one of constant development and differentiation, and of trailblazing battery systems and electromobility solutions. The dawn of e.battery systems signaled AKKU Master entering a whole new level of innovation, researching the future with highly innovative electromobility solutions, brand new ...

That is why, from the outset, e.battery systems is uncompromising when it comes to the quality and functionality of system-critical components. A particularly important aspect in an electric car is optimal thermal management. The Battery Management System keeps the cells in balance so that deep discharges - which could significantly shorten the ...

e.battery systems | 1.363 Follower:innen auf LinkedIn. Wir forschen an der Zukunft und entwickeln hoch innovative Anwendungen für Elektromobilität und Second-Life-Use. | Wir sind kein klassischer Händler für Batterien und Akkus. Unsere Stärke ist es, individuelle Hochleistungselektronik rund um Ihr Projekt zu entwickeln. Wir forschen an der Zukunft und ...

Good thing we already have what it takes to succeed, as e.battery systems was born in 2019 out of a renowned family firm, bundling decades of experience and knowledge. Some of us have been around since the start, others have joined us along the way to forge the future with us.

Mit über 30 Jahren Erfahrung in der Batterieforschung und -entwicklung steht e.battery systems für Innovation und Effizienz. Unser Ziel ist es, durch leistungsstarke Batteriesysteme die Elektromobilität voranzutreiben - mit ...

e.battery systems is a multidisciplinary battery producer which has become adept at developing customer-specific solutions. At the nexus of standard systems and bespoke battery systems, we implement extraordinary projects across the world. The development of innovative battery systems is our number one priority at e.battery systems.

We rethink systems, rethink electromobility, and link it all to sustainability. Why? Because this is our chance to make the world better, to improve the environment and the economy for future generations. We are convinced that we can make the step up from being an energetic startup to an internationally renowned leader in electromobility ...
