

Can the solarplay power station be charged with a third-party solar panel?

A: The SolarPlay power station can be charged with a third-party brand solar panel. You must match the plug size and input voltage of the SolarPlay power station you want to charge. For example, the third-party solar panel for the SolarPlay Q2501 should have the following specifications:

How many solar power plants are there in the Czech Republic?

At the end of 2021, there were over 50,000 photovoltaic power plants with an installed capacity of about 2200 MWp in the Czech Republic. There were 500 solar parks with a capacity of over 1 MWp. During 2022, the number of installations rose to almost 85,000 PV plants with a total capacity of 2,460 MWp.

What are solarplay portable power stations?

SolarPlay portable power stations are high-performance products, developed by our dedicated production plant and scientific researchers. SolarPlay has reliable products for outdoor adventures and backup power.

Does solarplay work with a generator?

SolarPlay power station is compatible with AC adapters and solar panels (11.5V to 48V, max. 500W), car cigarette sockets (12V/24V), and generators. We recommend using the Solarplay solar panel 200W with it. The built-in battery uses a lithium iron phosphate battery (LiFePO₄) that lasts 15 years with over 3500 charge/discharge cycles.

How much power does the solarplay portable power supply have?

[Adjustable input power and convenient to carry] The Solarplay portable power supply offers five adjustable input power levels: 300W, 500W, 700W, 900W, and 1100W. It can be charged according to the usage environment and charging needs, ensuring optimal performance.

How long does solarplay take to charge?

SolarPlay's technology enables dual charging, so it can be fully charged in about 1.5 hours despite its large capacity. It can be fully charged in about 1.8 hours at 1100W, which is much faster than other products. It works with AC adapters and solar panels (11.5V to 48V, max. 500W), car cigarette sockets (12V/24V), and generators.
