

One of Denmark's largest solar parks, Nørrede-Hjortmose near Ringkøbing, is now a significant step closer to being realized in full scale with the "ready-to-build" stamp. The solar park has a capacity of 132 MW equivalent to powering 42,000 households and at the same time replacing a significant amount of CO2 in the Danish energy production.

How to find the best solar panel company near you. Picking a solar company is the most important decision you make when going solar. You need to trust them to drill holes in your roof, help you navigate financing and incentives and provide you with 25+ years of customer service.

Solar energy is increasingly common on rooftops everywhere. Today, more than 2 million solar installations in the U.S. are generating electricity from the sun rather than from the local utility company. If you're thinking of greening your roof with solar panels, it's important to know the different types of solar panel companies, what they do and how they can impact your solar ...
