

Doosan energy storage Bonaire Sint Eustatius and Saba

When will Doosan's capital battery be fully operational?

Doosan's battery solution is expected to be fully operational by mid-2023 and support the ACT's shift to total carbon neutrality. France-based renewable energy firm Neoen has finalised a consortium of Doosan Heavy Industries and Construction and its subsidiary, Doosan GridTech, to build the Capital Battery.

What is Doosan's lithium-ion battery solution?

Doosan's lithium-ion battery solution will be deployed at the Capital Battery project. The solution is expected to provide grid stability for the electricity network of southern New South Wales while supporting the ACT's shift to total carbon neutrality by 2045.

Why did Neoen choose Doosan?

Doosan GridTech chief operating officer Wonyoung Ahn said: "We are honoured that Neoen has chosen Doosan to deliver its signature energy storage system in the ACT. "The Capital Battery represents a big step in building our momentum to provide high megawatt grid-scale battery storage systems.

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

Why does Doosan offer turnkey delivery?

"Turnkey delivery provides simplicity of purchase and a higher degree of short-term risk management." Doosan's lithium-ion battery solution will be deployed at the Capital Battery project.
