

Who is Dragonfly energy?

Dragonfly Energy has advanced the outlook of North American lithium battery manufacturing and shaped the future of clean, safe, reliable energy storage. Our domestically designed and assembled LiFePO<sub>4</sub> battery packs go beyond long-lasting power and durability--they're built with a commitment to innovation in our American battery factory.

Where can I find more information about Dragonfly energy?

For more information about Dragonfly Energy, visit [DragonflyEnergy.com](https://DragonflyEnergy.com). Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) is a comprehensive lithium battery technology company, specializing in cell manufacturing, battery pack assembly, and full system integration.

Can dragonfly energy transform the lithium-ion battery industry?

Through extensive research and development, we believe Dragonfly Energy is positioned to deliver a transformative cell manufacturing technology, which has the potential to fundamentally reshape the lithium-ion battery industry's approach to viable energy storage solutions.

Why is Dragonfly energy a leader in battery development?

Additionally, Dragonfly Energy is open to jointly developing next-generation battery cells specifically tailored for the needs of new markets. Dragonfly Energy believes this strategic approach positions them as a leader in the evolving battery production landscape, well-equipped to address the growing demand for clean energy solutions worldwide.

Does dragonfly energy make PFAS-free batteries?

RENO, Nev., May 09, 2024 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in green energy storage, has made a significant breakthrough in battery manufacturing with the successful production of PFAS-free electrodes in lithium battery cells.

Is Dragonfly Energy's patented dry electrode battery manufacturing process sustainable?

Results of a Cost & Sustainability Assessment, conducted by Sphere Energy, concludes Dragonfly Energy's patented dry electrode battery manufacturing process is easily scalable, more cost-effective, and more sustainable than the state-of-the-art technology currently available in the market.

Dragonfly Energy entered into a \$30 million licensing agreement with Stryten Energy, a leading North American battery manufacturer, to allow for expansion of Battle Born Batteries' products into new markets. The Company announced progress in bringing its lithium battery technology to the trucking sector, including a new partnership with Highway Transport ...

Dragonfly Energy has continued its expansion into the trucking industry, taking new orders for both its Battle Born™; All-Electric APUs and Battle Born™; Liftgate Power Systems from fleet operators since the beginning of 2024. The Company is announcing certification of its energy storage products for use in oil gas operations in North America, and identification of first ...

RENO, Nev., May 08, 2024 (GLOBE NEWSWIRE) - Dragonfly Energy Holdings Corp . (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in green energy storage and maker of Battle Born Batteries™;, received the Spirit of Nevada award at the annual Nevada Business Awards presented by Nevada Business magazine. The Nevada Business Awards ...

1 ?&#0183; Battle Born All-Electric APU A Battle Born All-Electric APU installed in between the frame rails of a Stevens Transport truck RENO, Nev., Dec. 19, 2024 (GLOBE NEWSWIRE) -- Dragonfly Energy ...

Innovative Instant ROI program allows fleets to achieve substantial and immediate savings from the deployment of Battle Born All-Electric Auxiliary Power Unit (APU) NEW ORLEANS, March 04, 2024 (GLOBE NEWSWIRE) -- Velociti Inc., a global provider of technology deployment, maintenance and integration solutions, and Dragonfly Energy Holdings ...

RENO, NEVADA (May 16, 2022) -- Dragonfly Energy Corp. ("Dragonfly" or the "Company"), a leader in energy storage and producer of deep cycle lithium-ion storage batteries, and Chardan NexTech Acquisition 2 Corp. ("CNTQ") (Nasdaq: CNTQ), a publicly traded special purpose acquisition company, today announced a definitive agreement for ...

Dragonfly Energy's LiFePO4 battery packs are engineered to offer unparalleled power and versatility to suit the diverse needs of various deep cycle applications. They can be wired in series for 12V, 24V, 36V, and 48V systems, or wired in ...
