Swimming Pools. Solar thermal is ideal for providing heat for swimming pools. By harnessing the sun a thermal system can provide 80% of your pool's annual heating needs and can be installed to complement the majority of existing heating systems or to heat the pool independently.

Ria Formosa is a place of extreme nature, with an environment that is always different at every hour of the day. This is due largely to the fact that the sea level rises and falls about 3 meters every 6 hours. Whilst there, you will discover a complete self-regenerating ecosystem, which allows a part of the local population to develop fishing ...
