The Cabinet Secretariat is pleased to announce that Ms. Sherab Zangmo (EID no.200801168), currently serving as the Deputy Chief Industries Officer at the Ministry of Industry, Commerce, and Employment (MoICE), has been selected for the position of Chief Planning Officer in the Policy & Planning Division of the Ministry of Energy and Natural Resources (MoENR).

The cabinet structure is the basis of the low-voltage switchgear combination, so the cabinet manufacturing process has become the basis. As a cabinet, it must meet the combined functional conditions of various electrical units, such as unified device types, combination standards, function distribution, etc., and must also meet the inherent requirements of the cabinet, such ...

Electrical enclosures protect electrical components from indoor or outdoor environmental disruption. Indoor enclosures house electrical devices, junctions, and switches, shielding them from dust, dirt, and water. Weather-resistant enclosures protect electrical components from outdoor elements like rain and sleet or indoor areas that may be exposed to water.

While Kuensel's regular coverage of the government's EV project (March 26, March 19, March 14) is appreciated, the vast majority of EV owners in Bhutan, which are privately owned and not taxis, are almost never mentioned. As having catered to this silent majority since 2014, I would like to share information for a more balanced view of EVs in Bhutan.
