

This can frequently be accomplished without NRE. Use the contact form to submit a request, or contact us to discuss your requirements. For our US team call (603) 267-8865, for our European team call: +41-41-740-4554. Configurations created for specific requirements will be assigned a new variant part number. [Learn More](#)

Enercon Industries Corporation announces the retirement of Richard Bull, Managing Director and Co-Founder of Enercon Industries Ltd. Richard will officially step down on Thursday, 31st October 2024, after almost four decades of dedicated service to the induction cap sealing specialists.. Richard co-founded Enercon Industries Ltd, the UK and European arm of ...

ENERCON Visit website About 2020 The collapse of the German wind onshore market in 2018 and 2019 was the starting point for a fundamental turnaround at ENERCON. The company is currently reorganizing at lightning speed, realigning its organizational structure and adopting a new strategic direction. ENERCON is focusing more than ever on international markets and [...]

The M167 AC to DC power supply is a Three Phase Input, Single Output, high efficiency, high density, military grade ruggedized AC to DC converter capable of up to 1600W output power. Features include; high efficiency, low noise, internal EMI filters and can support parallel operation for higher power applications. The 115AC input range is 103 - 127VAC Line to Neutral, 400Hz.

Enercon Technologies Europe AG Military-Grade power and networking solutions ITAR & CE. We offer Mil-Grade AC DC, DC DC power supplies, VPX Vita 62, UPS, rugged switches, routers, USB HUBS, media converters and custom solutions for military applications. Our power and communication solutions designed for harsh environments and meet military standards such ...

Ultra-compact military board-level Ethernet switching solutions offers up to 10Gbe transmission speeds, coated with board-to-board connectors. Managed switches provide the latest networking protocols for redundancy, security, multicast, and management including static routing, virtual LANS (VLANS), traffic prioritization/QoS, IPv4/IPv6 support, and bandwidth aggregation. they ...

Enercon's MILTECH 410 is a prime example of this technology. It offers a compact, rugged solution (115mm x 91mm) that consolidates communication and power into a single system, easily integrated into a smart ...

M9547 series is a 16-channel power distribution unit, designed for airborne and ground applications. It distributes 28VDC through overload and short-circuit protected switches. The M9547 series supports Ethernet communication to control, configure and ...

The M7525 DC/DC power supply is a Single Output, high density, highly efficient military grade rugged DC to DC converter capable of delivering up to 800W output power. Features include; High efficiency, low noise, internal EMI filters and can support parallel operation for higher power applications. The DC input range is 18V - 48VDC.

The MILTECH 9012 is a member of the MILTECH 9012 family that offers flexible alternatives for LAN, LAN/WAN, and customizable networking. All family members are MIL-STD, fully managed, and military grade, with 12 triple-speed (10/100/1000Mbps) ports. The MILTECH 9012 is a unique combination of both a Layer 2 Ethernet switch and a Layer 3 Ethernet router.

M4054 is a military grade 3U VPX, 28V DC-DC, SOSA(TM)-aligned PSU card that provides 12V and 3.3VAUX per VITA 62 that is rated at 768W output power. Features include: conduction cooling, "pitch, current-sharing, fast initialization, reverse battery protection, internal EMI filters, VITA 46.11 system management. DC input range is 18-50V per MIL-STD-704 and DO-160, but ...

The MILTECH 910-PoE is a rugged Power over Ethernet (PoE) switch that supports 60W of PoE on all 8 Gigabit Ethernet 10/100/1000 ports. It supports both 802.3af and 802.3at standard devices for PoE-enabled cameras, Wi-Fi access points, tactical IP phones, mesh nodes and other devices. The MILTECH 910-PoE is fully managed with advanced network features such as ...

The MILTECH 320G3UVPX is a 3U VPX Ethernet Switch with fully implemented IPMI management complies with the new VITA 46.11 Tier II. This VPX networking module Ports Slot Profiles per SOSA: 1) SLT3SWH2F24U14.4.3 24 x 10GKR + 2 x 40GKR 2) SLT3SWH6F1U7U14.4.14 SLT3SWH6F7U13.4.15 6 x 40GKR + 7/8 x 10GKR Supporting ...

The MILTECH 9022 is a rugged, MIL-STD 1U rack-mountable Layer 2 Ethernet switch with dynamic routing supporting 12 X 10/100/1000Mbps ports and 4 X 1G/10G fiber ports. Designed for MIL-STD-810F, MIL-STD-461E, MIL-STD ...
