

# Energy storage companies and european partners

Why is energy storage important in Europe?

In Europe, there is a growing consensus amongst policymakers that energy storage is crucial to securing affordable and low carbon energy. In May 2022, European Union launched their REPowerEU plan, a part of the European Green Deal, which mandates that 45% of Europe's energy generation needs to come from renewable sources by 2030.

What are the benefits of battery energy storage in Europe?

Increasing the use of renewables in the energy mix allows energy imports to be reduced, with clear benefits for Europe's energy independence and security. The decarbonisation of the energy mix and reductions in overall CO2 emissions are other clear, positive outcomes of an increased use of Battery Energy Storage in Europe.

Can battery energy storage solve Europe's energy challenges?

In order to deploy renewables and to release their potential for ensuring a stable and secure energy supply, Europe needs to work to overcome the intrinsic limits of renewables. One solution to these challenges is Battery Energy Storage.

Which companies are accelerating energy storage?

Because of the growing importance of energy storage, Storm4 decided to spotlight six companies in the European market that are accelerating the sector. Founded in 2016 and based in Stockholm, Sweden, Nortvolt is an operator of lithium-ion battery plants intended to produce batteries for variety of solutions, including EVs and battery storage.

Why should EU countries consider the 'consumer-producer' role of energy storage?

It addresses the most important issues contributing to the broader deployment of energy storage. EU countries should consider the double 'consumer-producer' role of storage by applying the EU electricity regulatory framework and by removing barriers, including avoiding double taxation and facilitating smooth permitting procedures.

What is energy storage global conference 2024?

The Energy Storage Global Conference 2024 (ESGC), organised in Brussels by EASE - The European Association for Storage of Energy, as a hybrid event, on 15 - 17 October, gathered over 400 energy storage stakeholders and covered energy storage policies, markets, and technologies.

July 9th, Bulgaria - Stationary battery manufacturer Hithium has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of ...

Turnover of German storage companies at five billion euros Interest in storage is expanding across all
