

What is the largest battery energy storage project in the world?

SAN DIEGO, August 19, 2020 - LS Power today unveiled the largest battery energy storage project in the world - Gateway Energy Storage. The 250 megawatt (MW) Gateway project, located in the East Otay Mesa community in San Diego County, California, enhances grid reliability and reduces customer energy costs.

Who is LS Energy Solutions?

Energy storage pioneer LS Energy Solutions is transforming how the world generates and consumes electricity. The more complex your project, the more you value field-tested experience. LS Energy Solutions is a pioneer in energy storage with a proven portfolio of storage solutions. Our philosophy is safety by design.

Why is LS Power powering up Gateway Energy Storage?

"For more than three decades, LS Power has been at the leading edge of our nation's transition to cleaner, more innovative energy solutions, and we are powering up Gateway Energy Storage as one more component of this vision," said LS Power CEO Paul Segal.
