

Will Guyana deploy 8 PV plants linked to storage?

The Guyanese authorities are seeking proposals to deploy eight PV plants linked to storage. The government of Guyana and the Inter-American Development Bank (IDB) have jointly launched a tender to deploy 33 MW/34 MWh of solar-plus-storage capacity. The Guyanese authorities said the tender will be divided into three lots.

Where is Guyana's second mega-scale solar farm located?

The Government of Guyana commissioned its second mega-scale solar farm, the 1.5 MW utility-scale solar PV plant at Bartica, Region Seven (Cuyuni-Mazaruni) in March 2023. At 22 off-grid locations, GEA installed over 163 kWp of solar PV capacity and 800 kWh of battery energy storage.

How many solar homes are distributed in Guyana?

The GEA supported the implementation of a massive electrification project to supply, deliver, and distribute 30,000 solar home energy systems to hinterland and riverine communities in Guyana. A total of 26,398 units were distributed as of December 2023.

How can Guyana manage complex infrastructure projects?

This agile responsiveness to its petroleum infrastructure and workforce needs integrated with foreign partnerships, investments and skills transfer is a harbinger of how Guyana can manage complex infrastructure projects, such as the Gas to Energy one and how competitive it can get on the global market.

What is Guyana's 'guysol' project?

With these finances earned by Guyana's first LCDS, a significant project on renewable energy is being implemented -- the Guyana Utility-Scale Solar Photovoltaic Programme (GUYSOL), which commenced in June 2022. This programme will help the nation migrate, in about three years, to a grid that uses 19 per cent renewable energy.

What does the Guyana Energy Agency do?

The Guyana Energy Agency continues to support national efforts in transforming the country's sustainable low-carbon pathway and the energy sector, as it contributes to providing cleaner, affordable energy access for all, as well as promoting energy efficiency and conservation practices.

The CEOG hydrogen-based energy storage project is being developed near Saint-Laurent-du-Maroni in north-western French Guiana. French Guiana is situated in northern South America, close to the equator. It, ...
