

Battery energy storage systems will play a key role in our decarbonisation plans, storing excess renewable energy generated in the day and discharging during times of high demand," Cook said, adding that the projects are among government initiatives and AU\$2.8 billion investment in turning the state into a "global green energy superpower".

Neoen said in November that thanks to its Australia portfolio, the company's energy storage revenues almost tripled year-on-year for the first nine months of 2022 versus the same period in 2021. Energy-Storage.news" publisher Solar Media will host the 1st Energy Storage Summit Asia, 11-12 July 2023 in Singapore. The event will help give ...

Construction has started on what will be the largest battery storage project in Belgium at 25MW/100MWh when completed later this year. Nala Renewables" lithium-ion battery energy storage system (BESS) will come online at metals conglomerate Nyrstar's zinc smelting operation in Balen, in Belgium's Flemish region, by the end of 2022.

The buildout will total 800MW/3,200MWh, comprising four facilities of 200MW, each with four hours" storage duration. Describing it as a "programme of great importance for the energy sector," the ministry said it ...

Energy generator-retailer Alinta Energy will deploy a battery energy storage system (BESS) in Western Australia at the site of one of its thermal power plants. The utility company serves more than a million ...

Energy-Storage.news" publisher Solar Media will host the 1st Energy Storage Summit Australia, on 21-22 May 2024 in Sydney, NSW. Featuring a packed programme of panels, presentations and fireside chats from industry leaders focusing on accelerating the market for energy storage across the country. For more information, go to the website.

The conflict in Western Sahara has been unresolved for fifty years. While Morocco is positioning itself as a pioneer in green energy, climate change is exacerbating the situation for the people in the Sahrawi refugee camps. To ensure they are not forgotten, the young activist Fatma Moulay is working tirelessly for justice. Sand and...

The government of Western Australia has begun a drive to deploy at least 1,000 renewable energy off-grid power systems aimed at bringing resilient electricity supplies to communities and customers. Called standalone power systems (SAPS), the technology combines equipment including battery storage and solar PV.

Western Australia (WA) has said it will provide funding for two battery energy storage system (BESS) projects that will be among the biggest in Australia to date. The government announced its State Budget 2023-2024 on Thursday, two days after its Federal counterpart announced the national Commonwealth budget for the period.

A render of one of two BESS projects that Evecon and Corsica Sole will build in Estonia. Image: Evecon. Bids have been received by Latvia's grid operator AST for an 80MW/160MWh BESS project while developers Corsica Sole and Everon will build a 200MW system in Estonia, as the Baltic region prepares to decouple from Russia's electricity system in ...

This becomes the second "virtual battery" contract AGL and Neoen have signed. Image: Neoen. Australian energy major AGL Energy and French independent power producer (IPP) Neoen have signed a 10-year "virtual battery" contract to build a second 270MW/540MWh battery energy storage system (BESS) at the Western Downs Battery project in Queensland, ...

Finite element analysis of flat ...

A 100MW/200MWh battery storage project in Western Australia is about to begin its operational test phase ahead of commissioning. ... Energy-Storage.news" publisher Solar Media will host the 1st Energy Storage Summit Asia, 11-12 July 2023 in Singapore. The event will help give clarity on this nascent, yet quickly growing market, bringing ...

Through its roll-out of massive energy projects in occupied Western Sahara, Morocco becomes more economically connected to, and dependent on, the territory it holds under illegal, military occupation. It intends to export energy generated in the territory to Morocco proper, and to sell off any surplus to surrounding countries, including the EU. ...
