Ecosun Aruba works with the very highest quality materials. We only use well known and reputable brands for our panels and inverters. Furthermore, all our solar panels are certified for usage in salty and windy environments like we have on Aruba. But even our cables and connectors are carefully chosen for their quality. We want our systems to last.

We live in ARUBA, a very sunny island in The Caribbean. Solar solutions are perfect for here. There are many ways to use the sun for your solutions. I use this mainly for generating electricity, but at the same time as a Dark/Light switch as well. Electronics, small mechanics, small construction is what I like.

With more than 5,000 wind and 2,500 solar hours annually, Aruba has tremendous potential for sustainable energy generation. Nearly 20 percent of Aruba's energy comes from clean power. ... Aruba Ostrich Farm: Guided tours run every 30 minutes from 10am to 3 pm. Tours are informative and interactive. \$14 for adults and \$7 for kids.
