

What is the energy event in Finland?

The biennial, largest energy event in Finland brings together energy production, power transmission and storing, energy users, and environmental and circular economy and real estate decision makers under the same roof in October. The event will showcase sustainable, smart, productive, and modern solutions to the energy transition.

What is the Nordic energy cluster?

The event is held in the growing Nordic energy cluster. The cluster has many active companies and actors working together with innovative projects such as the development of the Finnish batteries ecosystem, hi-tech products, and new University education for the industry.

Why is the Tampere Energy Fair important?

The fair is of great significance not only to Tampere but to all of Finland, as it is one of the largest of its kind and contributes significantly to the development and implementation of sustainable energy concepts. Tampere, as a technological hub in Finland, provides the perfect setting for this event.
